

First Announcement of the Exotic Beam Summer School 2015, to be held on the campus of Florida State University, Tallahassee, Florida, August 2- August 8, 2015

This year's Exotic Beam Summer School (EBSS) will be held on the campus of Florida State University, Tallahassee, Florida, August 2- August 8, 2015. Please pass on this notice to interested students and young researchers. As in previous years, the number of places will be limited to around forty participants who will be selected from the pool of applicants. The school is intended for graduate students, but senior undergraduates and junior post-docs will also be considered.

This will be the fourteenth in the series of annual summer schools devoted to the exciting developments in the study of exotic nuclei. The school is jointly organized by ANL, LBNL, LLNL, MSU, ORNL and ARUNA. ARUNA, the Association for Research with University Nuclear Accelerators, has joined the group of organizing laboratories in 2014 and is hosting the conference for the first time. The John D. Fox accelerator laboratory at FSU will provide an excellent opportunity for hands-on experience to the school participants.

Development of the Facility for Rare Isotope Beams (FRIB) continues apace and FRIB, along with other existing and planned exotic beam facilities around the world, will present wonderful opportunities for future discoveries and technical innovations. The school is intended to introduce students and young researchers to the various facets of the science of exotic nuclei including nuclear structure, nuclear astrophysics, fundamental interactions, and the application of nuclear science and technology in the modern world.

The school will comprise lectures each morning, delivered by distinguished figures in the various sub-fields. In the afternoons, there will be hands-on activities, geared towards introducing fundamental techniques and methods in the production, detection, and investigation of exotic nuclei.

More details will be available at

http://fribusers.org/4_GATHERINGS/2_SCHOOLS/2015/EBSS2015.html

The call for applications will be made soon.

With regards from the EBSS Board of Directors,

R. Clark (LBNL)

M. Carpenter (ANL)

H. Iwasaki (NSCL/MSU)

K. Rykaczewski (ORNL)

M. Stoyer (LLNL)

I. Wiedenhoever (FSU) - local organizer of EBSS2015 at FSU / ARUNA
