INPC 2016: FIRST CIRCULAR

We are pleased to announce that the 26th International Nuclear Physics Conference (INPC2016) will take place in Adelaide (Australia) from September 11-16, 2016. The 25th INPC was held in Firenze in 2013 and the 24th INPC in Vancouver, Canada, in 2010.

The Conference is organized by the Centre for the Subatomic Structure of Matter at the University of Adelaide, together with the Australian National University and ANSTO. It is also sponsored by the International Union of Pure and Applied Physics (IUPAP) and by a number of organisations, including AUSHEP, BNL, CoEPP, GSI and JLab.

INPC 2016 will be held in the heart of Adelaide at the Convention Centre on the banks of the River Torrens. It will consist of 5 days of conference presentations, with plenary sessions in the mornings, up to ten parallel sessions in the afternoons, poster sessions and a public lecture.

The Conference will officially start in the evening of Sunday 11th September with Registration and a Reception and will end late on the afternoon of Friday 16th September.

Registration will take place in April 2016, with the deadline for early bird registration at the end of that month. For students there will be a reduction in the fee, with a significant number of full fee waiver scholarships available.

Considerable effort has gone into finding a range of hotels with many rooms in good hotels well below US\$100. The next circular will be distributed in February 2016.

We look forward to welcoming you to Adelaide in 2016!

On behalf of the INPC2016 organizers,

Anthony W. Thomas
Conference Chairman
