

# **The 5th International Workshop on Compound Nuclear Reactions and Related Topics CNR\*15**

We are pleased to inform you that the 5th International Workshop on Compound Nuclear Reactions and Related Topics - CNR\*15 will be held in Tokyo, Japan during the week of October 19-23, 2015 at the Digital Hall of the Tokyo Institute of Technology, Meguro Tokyo, about 10 km west of downtown Tokyo. Mid October is an ideal time to visit Japan, with comfortable temperatures and usually pleasant weather.

The purpose of the workshop is to assess the status of knowledge of compound nuclear reactions, to review current theoretical and experimental efforts aimed at understanding compound nuclear reactions, to identify areas in need of development, and to outline possible strategies for addressing these needs. Our goal is to bring together experts in nuclear theory, experiment, and data evaluation.

We hope you will reserve this time slot in your calendar for participation in the event.

The CNR\*15 local organizing committee is:

- Satoshi Chiba (Tokyo Inst. Technology) - [chiba.satoshi@nr.titech.ac.jp](mailto:chiba.satoshi@nr.titech.ac.jp)
- Yoshihiro Aritomo (Tokyo Inst. Technology)
- Tatsuya Katabuchi (Tokyo Inst. Technology)
- Mark Paris (Los Alamos National Laboratory) - [mparis@lanl.gov](mailto:mparis@lanl.gov)
- Toshihiko Kawano (Los Alamos National Laboratory) - [kawano@lanl.gov](mailto:kawano@lanl.gov)

The committee will contact you in the near future with more information about the workshop.

Best regards,

Brett Carlson  
for the CNR\*15 Organizing Committee
