第44回RIBF核物理セミナー  
RIKEN Nishina Center for Accelerator Based Science  
The 44th RIBF Nuclear Physics Seminar

## Recent status of hypernuclear physics

Prof. Emiko Hiyama  
(Nara Woman's University)

In 2008 hypernuclear research will be initiated at J-PARC with an investigation of the structure of strangeness  $S=-2$  hypernuclei and the underlying hyperon-hyperon interactions. In this talk, I shall report on recent progress in theoretical and experimental studies of hypernuclei and discuss future developments in this field anticipated at J-PARC.

Apr. 26(Thu), 2007 16:30-  
RIBF Conf. Hall, RIKEN

*The seminar will be given in English.*
