

Dear Colleagues,

The 16th CNS International Summer School (CNSSS17), hosted by Center for Nuclear Study, the University of Tokyo, will be held for Aug.23 - 29, 2017. The school is supported by RNC and ANPhA.

The venue will be at Nishina Hall in RIKEN Wako campus.

The lecturers of the CNSSS17 are,

Prof. Umesh Garg (Univ. of Notre Dam, USA, high spin physics) , Prof. Munetake Ichimura (RIKEN, nuclear reaction theory), Prof. Robert Roth (TU Darmstadt, nuclear structure theory ), Prof. Tomotsugu Wakasa (Kyushu, giant resonances and related topics), Prof. Bhanu Pratap Das (Tokyo Tech, CP violation in atoms and molecules) ,Dr. Naofumi Tsunoda (CNS, nuclear structure theory), Dr. Aiko Takamine (RIKEN)

Further information will be found in the web page:

<http://indico.cns.s.u-tokyo.ac.jp/conferenceDisplay.py?confId=336>

The registration is now open from Registration section of the web page.

As the past CNSSS, we will have young scientist sessions where the Ph.D students and Post-docs contribute either poster or oral presentation. From this year, we will select a few persons from the poster and oral presentations as the winners of “CNSSS Young Scientist Awards”. The certificate will be given to the winners.

We plan to support students' stay or travel expenses, although it is limited. The support will be primarily come to those who perform an oral/poster presentation. If you wish our support, please make a registration and submit your abstract from the web page of CNSSS17 by July 24th (Mon).

We are looking forward to seeing you at the school.

With best regards

CNSSS17 Local Organizing Committee
