
Korea-Japan workshop on nuclear and hadron physics at J-PARC

September 22, 23

Seoul National University, Korea

This workshop will cover present and future topics of hadron and nuclear physics in J-PARC. J-PARC is under recovery from the damage of the earthquake in March, and this time is a good chance to discuss the present status of the facility and future direction of J-PARC.

If you would like to attend the workshop, please send the information below to tanida@phy.snu.ac.kr by **Aug. 30th**.

A limited support will be available to about 10 people (mostly students).

Sincerely,

Kiyoshi Tanida, Seonho Choi, and Hyonchang Bhang
